Request

Request ID	672906
Confirmation ID	672366

Dear FOIA Personnel, I am writing to request information related to water quality on Native American reservations. Specifically, I would like to request any and all documents, reports, and data related to water quality testing and monitoring on Native American reservations for the past 10 years. As you may be aware, water quality is a critical issue for many Native American communities, which often face significant challenges in accessing clean and safe drinking water. I believe that the information I am requesting will shed light on the current state of water quality on Native American reservations and help to identify areas where the action is needed to protect public health and the environment. To the extent possible, I would like the information provided in electronic format. If it is not possible to provide the information in electronic format, please let me know the cost of copying and mailing the records. If you need clarification on the type of information I desire and am requesting, please reach out to me and I will provide any additional clarification needed. In order to help to determine my status to assess fees, you should know that I am a college student attending Emerson College and majoring in journalism. This request is part of my research into a possible story idea regarding modern-day water quality on Native American reservations. According to the statute, this request should be acted upon as soon as possible, but in no event later than the 20th business day following receipt of this letter. If access to the records I requested is going to take longer, please contact me so we can work out a reasonable date. Please let me know if you have any questions or require additional information to process this request. I look forward to your response. Sincerely, Dionna Santucci
